1	Beds 14837	S of Whitsundoles Farm	Cropmarks - square enclosure with attached linear features/ enclosures	492250	239410	Unknown	
2	1081 / 1082	Nova MK1 Phase II	Trial trenching was carried out by Northamptonshire Archaeology in two areas. The trenches in the northern area confirmed the presence of a large rectilinear enclosure and associated features noted in the geophysical survey. In the northern part of the enclosure there was also evidence of occupation comprising the remains of a possible roundhouse and some small pits. The trenches in the road widening area revealed sparse late Iron Age field boundary ditches.	491797	238947	2006	
	1095	Nova MK1	Fieldwork by Northamptonshire Archaeology	491800	238950	2006	
3	1079	Nova MK1	Monitoring of geotechnical test pits by Albion Archaeology / Bedfordshire County Archaeological Service which did not reveal any archaeological features or finds.	491600	238540	2006	
4	1080	Nova MK1 Phase I	Trial trenching by Northamptonshire Archaeology revealed evidence for Romano-British occupation in the north east of the site in the form of ditches, gullies and postholes. Likely to form part of a small rural settlement occupied during the 2nd to 4th centuries AD. Some similar yet sparse and largely undated features were also revealed in the southern part of the site.	491920	238590	2006	
5	1062	Nova MK1	Magnetic susceptibility followed by detailed gradiometer survey revealed a sub-rectangular enclosure and linear anomalies in the northern part of the site. The south east of the site revealed a possible extension to an existing field boundary and possible tree planting pits. The area of the former exhibition ground was revealed to be highly disturbed. Work by Northamptonshire Archaeology	491960	238590	2006	
6	6523 / 9179	Park Farm enclosure	1999 digital aerial photograph indicated a possible rectangular enclosure on a north-east / south-west orientation. Size approximately 150m by 80m. Appears to be overlain by denuded ridge and furrow.	491861	237878	Unclassified	
7	4021 / 4839	Passelewes / Paslows Manor	1) Principal manor, given circa 1180 to ancient family of Passelewes. 2) Origin of Manor known as Passelewes/Paslows is obscure. 31	1005	Deethe Farm, Woburn Sands	Desk based assessment and field reconnaissance survey conducted on proposed development site c. 80 acres. DBA identified 'no known significant' archaeological sites within the area. However, it did note a number of 'less significant' sites including: The Bucks/Beds border (Wavendon/Aspley Guise Parish boundary); former woodland and plantation; ridge & furrow; a former farm building; and a number of extant/defunct field boundaries. The field reconnaissance comprised a visual inspection of the land within the proposed development area. This located 'minor, linear earthworks, a concentration of ceramic building material, a dark soil mark, and various isolated finds of low significance'. The survey also established which hedgerows met the historical criteria of the Hedgerow Regulations. Work by Network Archaeology	492810	237000	2000
